

Dear Alfred

My name is Freddy from Milbourne Lodge School. I can't stress how much your story has affected me. You represent the entire population of the poor souls who were exposed to those appalling conditions. I went to visit the Holocaust exhibition at the Imperial War Museum. I saw their shoes. All of them. The acts of cruelty and inhumane discrimination committed in those soulless courtyards was truly incomprehensible.

I will take you out to the park, and we shall sit on a bench, just listening to all the sounds you missed while you were locked away. The chirping of the birds, the laughter of children and the swaying of trees.

We will never forget the awful conditions you and your family had to face.

Yours sincerely
